

The Smart Cootie Catcher

1. For complete instructions go to www.tccabc.com "Classroom Crafting with Carol".
2. Teacher makes 1 color copy of this template for each student.
3. Students cut on the black line & fold in this order:
Red - Fold and open again.
Orange - Fold and open again.
Green - Fold the paper on the green lines.
Blue - Turn over. Fold the cootie catcher up to the light. Fold on the blue lines you see inside.
4. Turn over & fold in half.
5. Open & fold in half again.
6. Slip your fingers inside the pockets. Now, you are done folding the paper.

This is the fun part. Traditionally, we had colors on the front, numbers written inside and questions/answers under the flaps.

This is "The Smart Cootie Catcher"! Be creative and think of all the different types of cootie catchers you can make to help with classroom instruction.

Visit www.tccabc.com for specific ideas about classroom instruction (seasons, math & geography).
