

Free 6 cm square printable gift box scoring, folding and sticking template.  
Supplied by [www.craftyferret.co.uk](http://www.craftyferret.co.uk)

This template can be used to draw round on card of your own choice or as a scoring diagram for one of the free Crafty Ferret printable patterned square box downloads.

If making a box using card of your choice print this template onto A4 printer card. To ensure your template is the correct size set your printer page scaling to 'None' before printing. Check your printer instructions for more information.

Carefully cut out the template using a craft knife and ruler. Position the template onto your chosen card, draw round it and cut out your box shape.

Lightly score the cut out box in the same places as the dotted lines shown on this diagram.

Fold the scored lines and stick the side tab to the inside of the box on the opposite side using double sided tape or craft glue.

To make the bottom of the box fold in all four tabs. Secure the last tab to the others with double sided tape or craft glue.

**This gift box diagram/template is for your personal use only.**
