

EXOTIC ESCAPE EXTRA

Party Mask Templates

Inspired by Truman Capote's glamorous Black and White Ball, we created these whimsical masks for an unforgettable New Year's celebration.

Create one for each guest and display in a silver ice bucket on the bar or on the table.

WHAT YOU'LL NEED

- Mask template
- Printer paper
- Colored or patterned card stock (we used thick scrapbooking paper)
- Thin stick or dowel rod about 12-16 inches long (you will need one stick per mask to make a handle)
- Glue (we like a hot-glue gun for this)
- Scissors
- Pencil

OPTIONAL

- Decorative paper tape and paint (to decorate the stick)
- Adhesive rhinestones (to decorate the masks)

HOW TO

1. Print out the mask template on regular printer paper. Cut out the template along the dotted lines.
2. Using a pencil, trace the template outline onto your card stock, and cut it out.
3. Decorate your stick to create a fun handle for your mask. We used gold spray paint and decorative tape.
4. Position the handle on the back of the mask near the outer right edge, and glue it in place.

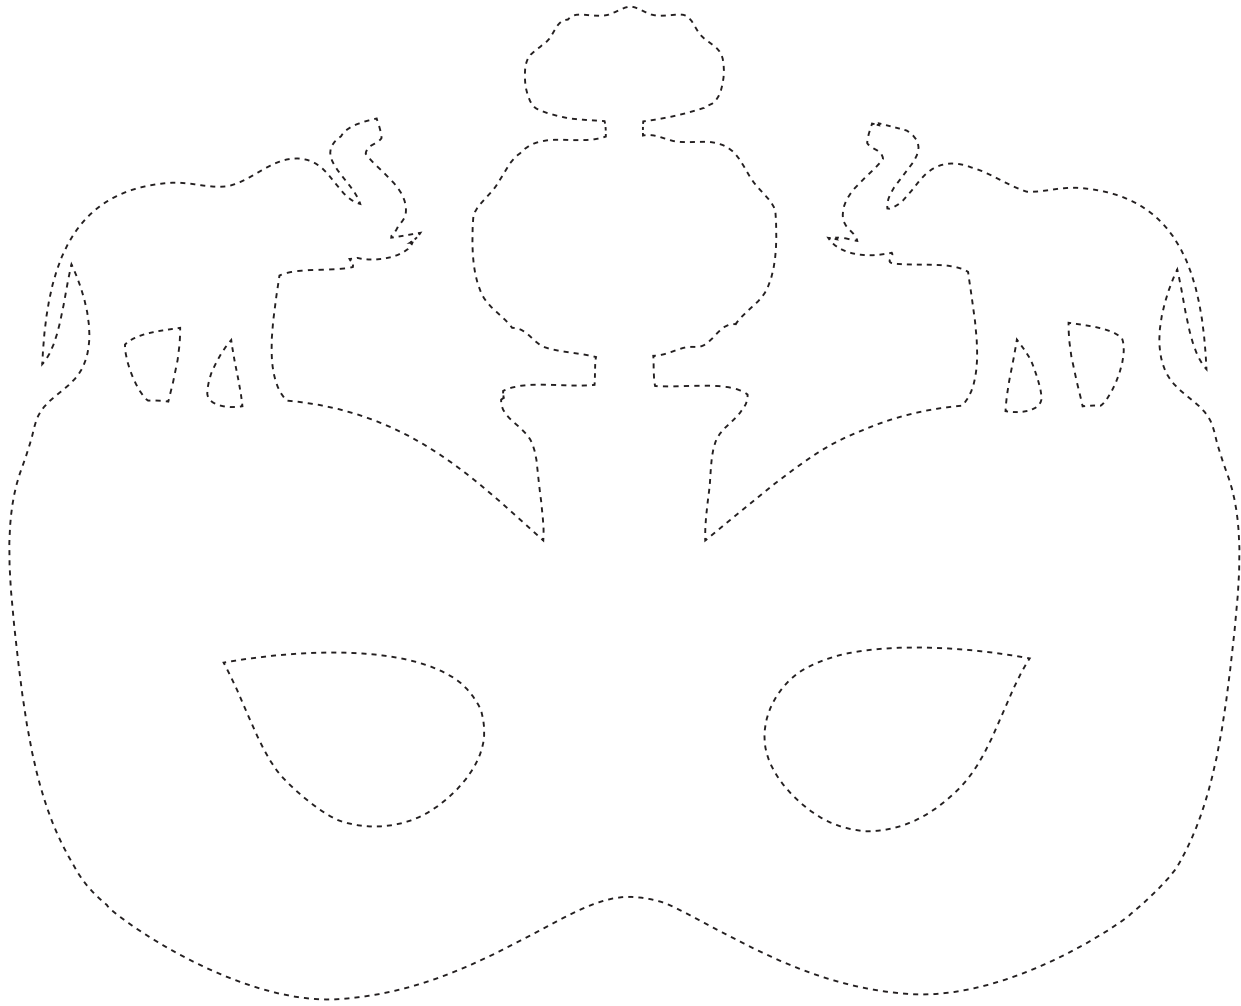

EDITOR'S TIP

"These masks make for great photo ops and put everyone in a celebratory mood."

-MEGAN PFLUG, SPECIAL PROJECTS EDITOR
