## Rules for Roman Numerals

- Roman Numeral I = 1
- Roman Numeral V = 5
- Roman Numeral X = 10
- Roman Numeral L = 50
- Roman Numeral C = 100
- Roman Numeral D = 500
- Roman Numeral M = 1,000

You shouldn't have more than 3 of any one Roman Numeral in a row. For example, 4 should not be shown as Roman Numeral "IIII". Instead it should appear as Roman Numeral "IV". When a lower Roman Numeral appears before a higher Roman Numeral the lower is subtracted from the higher – as in Roman Numeral "IV" (I=1 and V=5) 1 (I) is subtracted from 5 (V) to equal 4 (IV).
